

Vol. X, No. 17

WORTHINGTON HIGH SCHOOL Worthington, Ohio

May 28, 1971

The class of 1967 held graduation ceremonies in the W.H.S. gymnasium. This year's ceremony will be held in Mershon.

### GRADUATION SLATED

#### FOR JUNE 8

The graduating seniors will march in an impressive parade on June 8, lead by the class president Dan Wise, and vice president Bill McKee into Mershon Auditorium at 8 p.m. Senior, Mark Sopp will be at the organ.

The seniors will sit on the stage facing the audience in a tiered seating arrangement. Mr. David Cavenaugh will introduce the graduating class and the "honor" students, Jenna Kohles, John Ericson, Tom Long, and Linda Brey, who will be the speakers. Board Members.

Parents will sit in the front middle section of the auditorium. The faculty will be seated together in the back of the main

The choir will perform under the direction of Mr. Joel Haney. The senior members will sing the moving song "No Man is an Island" which will be under the direction of senior, Sue Koelbel.

The seniors will march out directly after they are presented with their diplomas by the School

#### SUMMER SCHOOL OFFERS NEW COURSES

Summer school does not have the connotations that it had for our parents. Today, there are students who actually want to go. Such is the case at Worthington.

Mr. Bruce Emery, director of the summer school program this year, and also principal of Evening Street School, revealed that many of the students who were taking summer school might be doing so on their own accord. It is hoped that summer school will not just be a review term for those who did poorly during the regular school year. Mr. Emery continued, "Most of our summer school is for good students, interested in expanding their knowledge, to take things they might not have time for in regular school."

The new courses being offered also provide an incentive to attend summer school. One example of a new class will be a field biology course taught by Mr. Pinnicks. Worth a full credit, and available only in the summer, this course's classroom will be mostly where the name implies, out in the field. The class will study both plant and animal life, with an emphasis on animals. Other new courses include "Basic Communication," introduction to the behavioral studies, "Language in Action," a schools in the Worthington area. poetry seminar, and two art Students may obtain applications classes.

signed up to take a course this High School, and in the Guidance summer, specific room assignments will be posted both at Evening Street School, and at thingway. Students may apply the high school approximately a week before the start of classes, June 21. Although 15 is the minimum number of students that can be enrolled in any class. Mr. Emery reported that if the

number is close to 15, the class will still be held. Students will be notified by mail if any class that they signed up for is to be cancelled. The decisions about a particular class being held will be made on the weekend of the 28th. The letters, if any, will be sent out shortly thereafter. The summer school principal, however, mentioned that courses such as driver's ed., and typing will almost positively be held.

#### JOBS FOR W.H.S. STUDENTS

Summer jobs are being made available to Worthington students through the La Sertoma of the Greater Worthington. This committee, now in its fifth year, is a non-profit making organization which works in league with the Worthington Human Relations. These committees exchange information in order to find the applicant best qualified for a given job.

The La Sertoma Job Committee is chaired by Mrs. Emery who receives applications from in the Guidance Office and For those who have already Student Center in Worthington Offices of Kilbourne, Perry Middle School, and Worfor either full or part time jobs.

> Jobs most in demand for girls are baby sitting and light house work. Jobs for boys range from full time office and stock boy, to lawn mowing.

# INTERNATIONAL FIELD STUDIES PLANS EVENTS

Sherie Lindamood

with works of art, two-thirds of which have their faces turned to the wall." This observation made by Mr. Dave Holl became the primary reason for forming the International Field Studies. The organization was founded in July of 1970 by Mr. Holl, math teacher at Kilbourne, Mr. Herb Linzell, science teacher at Kilbourne, and expand scientific learning beyond the text book and provide first hand ecological experience for elementary, secondary, and college students in central Ohio. The organization is also working on a program which will include trips around the United States completely free of cost to inner city students. The goal of the International Field Studies, Mr. Linzell stated, is to "provide as many different kinds of outdoor educational activities to as wide a variety of people as possible."

This summer the International Field Studies will be sponsoring four major trips. The first will be to the Yucatan Peninsula, June 10th through the 22nd. Mr. Linzell will lead this group to the southeast tip of Mexico, the main

"To a person uneducated in purpose being to set up a field natural history, a sea-side stroll station which will be used in later or a walk through a woods is like trips (during Christmas and strolling through a gallery filled Spring vacations). The group will also study the archeological and sociological aspects of Mexico in relation to the Mayan Indian

Mrs. Ann Kramer, president of the Worthington Rock and Mineral Club will lead a 17-day trip through the Rocky Mountains, June 11 to June 17. Students on this trip will have an op-Mr. Ben Bohl. The purpose is to portunity to collect a wide variety of rocks and minerals and become acquainted with the geological formation in which they occur.

> There will be two Appalachian Trail hikes led by Mr. Holl, both in June. One will be the 12th through 18th, the second, 20th through 26th. These each consist of a 35 mile hike through the Smokey Mountains.

The third trip will be through the Canadian Rockies beginning July 1 and running till the end of the month. This group, led by Mr. Holl, will travel north and stop at Alma College for a lecture on the peat bogs in the area. The trip continues up through Ontario, Kenora, then in Churchill, Manatoba the group will see the Beluga Whaling Industry. The

journey continues west to Banff National Park for snowmobiling in the Columbia Ice Fields. The highlight of the trip will be an eight day canoe trip in the northern part of British Columbia which will include trout fishing and mountain climbing. The last stop will be Seattle, Washington where the students will observe the Olympic Rain Forest.

The last International Field Studies trip will be north through Nova Scotia, Newfoundland, and Labrador. The trip will last from August 14 until September 6 and will take about 30 students. This trip will be led by Mr. Holl and Mr. Linzell, with help from two Capitol University graduates, Wendy Beck and Dianne Blausey. They will start at Niagara Falls, progress to the White Mountains of New Hampshire and then to Bar Harbor, Maine. Other stops include Nova Scotia, Cape Breton in Newfoundland, Labrador. Quebec and Montreal.

For further information regarding any of the International Field Studies trips, please contact Mr. Dave Holl or Mr. Herb Linzell at Kilbourne or the Center of Science and Industry.

# Mr. McBurney Wins Award

Happiness is receiving an award for being an outstanding biology teacher of Ohio and being presented with a \$2,000 microscope. At least that's how Mr. McBurney feels after receiving this honor Tuesday afternoon at the teacher's meeting.

"I was thrilled and it's a good feeling to know I made the right decision by becoming a teacher." Mr. McBurney revealed. "It's nice to know someone else must think so too."

Did the publicity given to Worthington Field Studies have anything to do with the award? "I am sure it did," he said, "the selection committee specifically asked for a copy of the article run in the Dispatch's Sunday supplement."

Besides being involved in the field studies program, Mr. McBurney held a position on the Worthington City Council, was president of the Worthington Education Association, chairman of the Central Ohio Education Association and is an active member of the Ohio Conservation and Outdoor Education Association.

"The Outstanding Biology Teacher of the Year" is not the only recognition Mr. McBurney

Mr. McBurney peers into his microscope, part of his "Outstanding Biology Teacher of Ohio Award"

has received for his teaching secondary Biology teacher's ability. In 1962, he was named fellowship. Central Ohio's outstanding National Science Foundation's from the national fifty.

Mr. McBurney's ultimate goal science teacher by the Ohio is an award given to the top Academy of Science. In both 1964 biology teacher in the United and 1965, he received the States. This person will be chosen

# Write On!

### Education Essential

by Jeff Morris

Another first Tuesday in May has passed and with it another annual primary election. Once again voters thronged to the polls to assert their power. The ballot box, the very life blood of American democracy has again been filled. The content and resultant action stemming from these votes will be examined in this article.

A survey of the eighty-eight counties in Ohio revealed that 66 percent of school related money issues failed while 74 percent of school bond issues met the axe. This is an alarming increase from previous years. One community, Newton Falls, in Trumbull County defeated its sixth straight school levy, while four other communities failed for the fourth consecutive time.

Here in Franklin County, the Columbus City Schools operating levy and bond issue both failed, by votes of 66 percent to 34 percent, and 69 percent to 31 percent respectively. Outgoing Superintendent of Schools Harold Eibley lamented, "I cannot conceal my disappointment over the results of the vote."

Statewide, vocational school levies fared particularly poorly. This is quite disturbing in light of the fact that a quality vocational educational program, most experts agree, is essential for the future.

These dire events bring up a number of pressing questions. Noted historian Richard Hofstadter recently stated, "Americans are no longer able to sacrifice for the public good." Is America, in its blind effort to cut costs going to deny American youth a basic right, namely that of a good education. Is the American ideal of free, quality education, long cherished and revered to fall by the wayside for seemingly transient causes? Now more than ever, that possibility looms omnipresent. Certainly the most affluent nation in the world, noted most recently for its devastating genocide in Southeast Asia can spend enough at home to adequately educate its own children. A sum that would be a drop in the bucket compared to recent "defense" expenditures.

The question is, can "Amerika," in the long run, afford not to educate its people adequately. I think any thinking man will realize that the answer is a resounding No. Only by facing its responsibility, namely that of quality education for all can "Amerika" face the future.

### SMOKING LOUNGE QUESTIONED

The idea of a smoking area is not supported by all students. Sophomore Mickey Jacobs is strongly against the idea.

She plainly states her view. "I'm against a smoking lounge not because it's a shameful horrible thing to do, but primarily because it's a fact that smoking is a very definitely linked with lung cancer. It's harmful to your health in ways we may not even know yet. If the school were to establish a smoking lounge it would be condoning the habit. Granted, keeping it restricted to sneaking drags in the restrooms doesn't solve the problem . . . But at least it doesn't encourage smoking as a lounge would.

"We talk so much of the hypocrisy of today's adult world, yet what better example than to condemn smoking as a potential death risk in Health classes and then provide the students with a lounge to go right ahead and puff away. That many doctors can't be wrong. If it were all only speculation, why is the American Cancer Society spending millions on advertising and research concerning cigarettes?

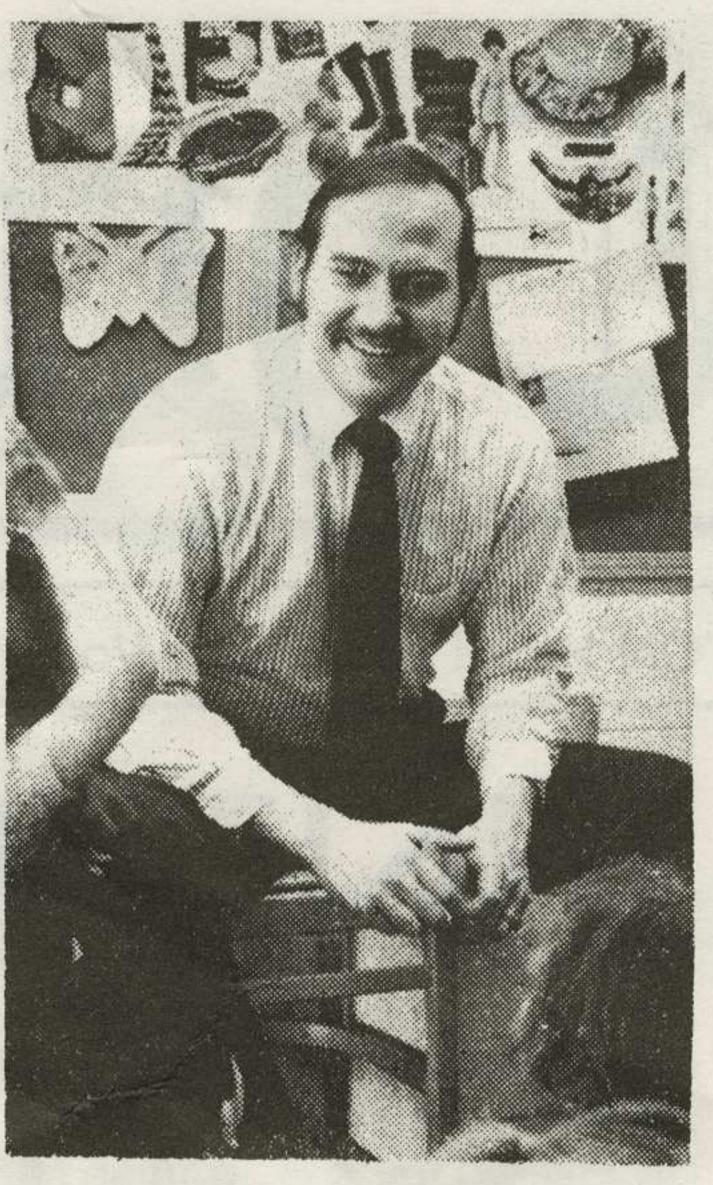

If the students are dumb enough to smoke, let it be. They're rotting their own lungs and it cannot be prevented. But if it can be discouraged in any way, shape or form then I'm willing to put up with the inconvenience of blue restrooms a little longer."

Other students agree. One student felt, "A smoking lounge will never eliminate smoking in the restrooms because most smoking is done between classes when there isn't time to go to the designated area, so instead of being late for class, the restroom will be a haven for smokers."

Another student said, "Why should the administration buckle under the pressure from students? Smoking is bad and should not be condoned by any influential body like a high school."

Still another student added, "Now that you have lifted off the penalty of smoking in the school, more students will start smoking because now nothing can happen to them and there is less of a chance of their parents finding out."

Mr. Cavanaugh was sent a letter from the Tuberculosis Society, urging him to refuse to permit a smoking lounge.

School levy helps make this learning possible.

## NATATORIUM COULD BEREALITY

by Marianne Newman

Wouldn't it be great if while the snow was falling on those freezy-winter days, we still would be able to remember the joys of summer by taking a refreshing dip in the warm waters of an indoor pool? This present-day dream could become a reality if the natatorium drive receives enough support from the community.

Original proposals call for a natatorium that would be open from 6:00 a.m. to 10:00 p.m., six days a week. The pool will be financed through the sale of \$100 loan certificates (bonds) to Worthington residents. Such a system has proved to be quite successful in the financing of our community's present summer pools. Bondholders would receive the added benefit of savings in their membership costs.

Anyone residing in the Worthington School district or employed by it is eligible for membership. There will be three types of memberships available: summer only, winter only (from September through May) or year-round swimming.

The new structure is estimated to cost \$170,000. The proposed site for the natatorium is west of the present swimming-diving pool complex. The building would span 100'x100' and the pools' dimensions would be twenty-five yards long, with six lanes and two one-meter diving boards. The construction would also contain locker rooms and office space.

It is estimated that the total job of erecting the natatorium can be accomplished in approximately three to four months after the start of construction work.

So maybe you will enjoy that cool swim sooner than you expected!

# Letters to the Editors

Worthington Students: There are several problems facing you now. But I will bring you some more. Not the ones that have been beat to death, like Open Lunch and the Smoking Lounge.

One of my major gripes is the grading system. I feel that the system we have must be eliminated. And be replaced with all courses as Pass and Fail. This would help solve teacher prejudice and the competition of students. The parent hassle would stop and probably homework.

The next problem is Freedom of Press. I feel that any material printed by W.H.S. students should be distributed without any Faculty censorship. Without any Faculty judging the merit of the material. However, the students must complie with state laws.

The last problem is the elimination of the out dated popularity contest, well known as Student Council. This organization has seen the best days when we were in the '50's. But what use are bobbysocks now?

I'm working on a solution, but it's not complete, but as a concerned student I realize our problems. I hope you do too.

Prince of Zap

# Students Proud of Team Teaching

Dear Editor,

In the April 30 edition of The <u>Chronicle</u> an article entitled "New Courses Highlight New Year" stated as fact the following items concerning the Kilbourne Teaching Team:

The team will be eliminated next year

The team was voluntary

"Very few kids were interested or satisfied with the system"

Only the first of these items is true.

First, the team was voluntary to only some students. Students who registered in eighth grade for World History, English I, Earth Science, and Algebra I were placed automatically on the team. This was done simply to provide a team program at Kilbourne.

Second, the student response to the team program at Kilbourne this year has been quite favorable. In a poll taken on April 30, 76 percent of the 88 students responding stated that they were either "satisfied or interested" with the ninth grade team; 19 percent stated that they were either "dissatisfied or uninterested" with the team; and 5 percent had mixed feelings. These results indicate that most of the ninth grade team students were generally happy with the team.

It seems, then, that The <u>Chronicle</u> should have been more careful to verify it's information about the team. In light of the above facts, I feel that The <u>Chronicle</u> should retract the statements about the Kilbourne team made in the April 30 article.

John W. Hoeffler Kilbourne Team Teacher English I

The Chronicle acknowledges these errors and regrets any misunderstandings resulting from them-Ed.

# What Is Your Opinion?

This Chronicle opinion poll recorded the various first reactions to the question: "What is your opinion?"

Nancy Dillon: "I have some opinions, but nothing you could print."

Kim Koppenhafer: "On what? On anything? I guess I don't have one."

Mr. Kuyper: "About what? Is this a nonsense question?"

Nancy Harris: "My opinion is always fantastically wonderful." Mr. Riegel: "You can call it an attitude or belief."

Liza Elliott: "Yes." Jean Phillipe Pernet: "I don't have any opinions."

Brian Shupe: "I think it wreaks."

Patia Williams: "I think it should have more stories on community events."

Gerald Edwards: "Talk to Judy." Judy Oswald: "What is my

opinion? . . . Oh wow . . . ." Ding: "Its always nasty and sometimes sarcastic. I have to find a word that rhymes with

sarcastic, how about spastic? My opinion is hardly ever spastic. Most of the time it's just plain intelligent, like me."

Broose Schmidt: "Don't change it, we can get around it the way it is."

Amy Hyler: "Why are you asking that question. You know nobody in this school ever thinks, so why do you ask their opinion?"

Susan Jones: "The most important generalization of which to rid oneself, in my opinion, is one which says-"the people are gay, free, happy and acquiescent"."

Cards hitting hard

(Photo by Dan Paoletti)

# CARDS PREP FORSTATE

by Tom Bryant

The Cardinal track team sharpened up for the state meet tomorrow by winning their 23rd consecutive dual meet along with the Ohio State Relays, the Marion Relays, the Claymont Relays and the Upper Arlington Relays.

Linden McKinley and Lancaster were the Cards final dual meets of the season, and they won them both to go 11-0 for the 1971 season; Coach Eisenhart's 25th.

Top performers in past weeks include Wayne Wheatley, who ran a:22.7 in the 220 at Marion, while Mark Draher posted a:10.0 in the 100. Brad Trucksis flashed to 1:56.4 in the 880, the fastest time in the state at publishing time, and Ralph Fallon won the Marion 2 mile in 9:34.3. Tom Bryant ran a 4:26.3 mile at the same meet, shortly before Steve "will be right up in there."

Hedge triumphed in the 440 with a:50.3 clocking. Al Allen has thrown the shot over the 50' mark with great consistency, while Dan O'Rourke has a 14.6 timing in the high hurdles, and a:19.5 in the lows. O'Rourke will team with Tim Kight to give the Cards a 1-2 hurdle punch tomorrow.

Greg Anderson recorded a 10:09-two mile split to lead the eight mile relay team to a new school record. Judd Klinger, Tom Long, Allen Brown, Vince Canzani and Randy Koenig have been other top point scorers for the WHS cindermen this year. Little will help the Cards in the 440 tomorrow, since he has state meet experience to draw upon.

Coach Eisenhart concedes that Saturday's battle at O.S.U. will be close, but promises the Cards

# CARDS LOOKING FOR CONFERENCE

by Ralph Church

The Cards baseball team rampaged through the OCC making eight straight victories. The team has done this with a combination of strong pitching, good defense, holding the victims down, speedy base running and powerful hitting, putting them in the win column.

Bob Monahan pitched a four hit shutout to defeat the Whitehall Rams and Van Gregg 6-0. Monahan walked only one, while fanning seven Rams. The attack was well balanced with an out-Jack Savage who had a perfect day (three for three).

This victory set the stage for a battle with Reynoldsburg (5-0) for first place, and a pitching duel between aces Clint Nicely and Randy Shade.

four, with a double and three singles. The Cards chased Shade early and won easily (8-1). Nicely pitched a fine three hitter and struck out 13, while he helped himself at the plate, collecting two singles, stealing a pair of bases, and both drove in and scored a run. Bill Atha hit his third home run.

Against Delaware, the Cards won a close one with a sixth inning rally. Dave Dawson was working on the victory until he reached a sixth inning jam. Tim Riggs came in with two men on and two out and got the batter to fly to deep center where it appeared to be a long out, but Ken Foster dropped the ball. Both runners scored to tie the score at three apiece. In the bottom half disappointing. But the Cards can Jack Woods bed a fired-up of the inning, Mark Harbert still make something of the Cardinal team going four for scored on an error with the go season with a conference title.

ahead run and Foster followed with a two run homer to get the runs and the game back for good.

Everything looked good for the tournament as Worthington opened with near last place Gahanna which they had beaten earlier. But everything went wrong as the Cards committed 9 errors and the Lions scored seven runs on three hits. The final score was 7-3.

The team bounced back against Mt. Vernon pounding them 9-3 as Gary Miller pitched a three hitter and K'd nine. Foster hit another home run; and Atha went three for three, scoring two runs, driving in one, and stealing three bases.

The tournament results were
